

# CHURCH MISSIONS PARTNERSHIP

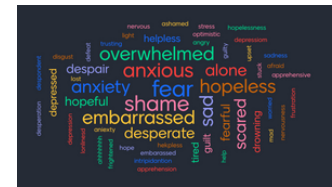

donate:support

## Does your church see people facing financial challenges as your mission field?

Support CAP monthly through your church's mission's budget, or one time through benevolence funding events, e.g this upcoming Christmas.

### How your Church can make a difference:

- Help families and individuals across Canada who are struggling with finances. There are so many emotions surrounding financial matters, many of them are negative. You can help change this.
- There are almost 15 million Canadians who are struggling with stress about finances\*. Your church's support helps extend access to life-changing free professional credit counselling and financial literacy tools through the Debt Network and Money Course to even more families and individuals.
- Your church will be helping even more households attend a Money Course than the 409 so far this year, learning skills to manage more than \$8.5 million in combined debt.
- Your church will be making it possible for even more families to access licensed advice and relational care than the 119 so far this year.

### What you will get as a Church Mission Partner:

- Reports through the the year including client stories to show the difference you're making. You can share these in your own communications.
- Opportunity to host a member of the CAP team in a Sunday service so your church can learn more about Biblical generosity and financial literacy.

### How can we become a Church Missions Partner?

- The next page has details on how to become a Church Missions Partner.

# HOW TO BECOME A CHURCH MISSIONS PARTNER

**Become a Church Missions Partner to support equipping families with essential financial literacy and support.**

As a Church Missions Partner, you will be making it possible for even more families and individuals than the 409 equipped with budgeting tools, and the 119 served in the Debt Network to access the help they need to look to the future with hope.

Each new family helped with financial literacy tools or debt counselling is a family with renewed confidence in their financial future who has been connected with a local church.

The need is real. You can help.

## How to become a Church Missions Partner

Donate  
online here:

### Set up a monthly donation
